New keys worth learning

`Ctrl+S`	Open any program: type the code (like OIS300) and press Enter
`F7 / F8`	Previous / next record
`F10`	Next sort order
`Ctrl+~`	Jump back to the last program you had open
`Alt+R`	Open the Related menu
`Ctrl+L`	Jump to the list
`t`	In any date field: fills in today

Customer Service: your old option → your new program

Same habit: type a code and go. Press `Ctrl+S`, type the code, press `Enter`.

Draft: the Customer Service SME is still checking these in TST. Lines marked "checking" may change.
